

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 18 January 1962

- STAT 1. [] The Director, accompanied by Mr. Houston and Mr. Warner, appeared before the Senate Armed Services Committee, in open session, for confirmation of his nomination by the President to be Director of Central Intelligence.
- STAT 2. [] Called Mr. Edward Roney, Assistant General Counsel, DOD, and suggested a meeting for the first part of the week on the Missing Persons Act amendments contained in the proposed DOD legislative program. (See Journal of 17 January.)
- STAT 3. [] In response to a request from Glen Wilson, Senate Aeronautical and Space Sciences Committee staff, picked up two first-run galley proofs of a report prepared over the last year from unclassified sources by the Library of Congress on "Soviet Space Programs: Organization, Plans, Goals, and International Implications," for the Committee's use. Mr. Wilson requested the Agency's review of the proofs for sensitive materials. Although all sources utilized were unclassified publications, if any of the matter is deemed sensitive by us, the Committee would prefer that such material be stricken.
- Mr. Wilson indicated that other copies are out for review. Copies have been forwarded to Air Force, one of which was to be transmitted to Mr. Creeger (phonetic) at Rand. He also indicated that copies had been forwarded to the American Academy of Sciences.

SIGNED

JOHN S. WARNER
Legislative Counsel
